# OUR IMPACT

## MISSION:

To help people understand and experience lucid dreaming through affordable education based in science, while advancing knowledge through action-oriented research.

**Educated >100 people from 13 countries!**

## RESEARCH

We began two studies on lucid dreaming; one is in the stage of data collection and the other is undergoing data analysis. We plan to publish the first study of our research program next year. Meanwhile, our research participant list continues to grow with people from around the world!

## EDUCATION

In 2022, we provided several educational programs to accomplish our mission: 1-on-1 lessons, academic articles, and a self-study course on How to Lucid Dream. We are delighted to have helped over 100 people across the globe to better understand lucid dreaming as well as experience it firsthand.

We are proud to say 100% of donations went directly towards the programs of our mission, and **96% of all spending went to lucid dream education and research.** We value transparency in all aspects of our organization and are dedicated to ensuring that our supporters see the direct impact of their contributions.
